SITE 6: ADD A COMMENT ABOUT THE HOSPITAL	7

### INTRODUCTION

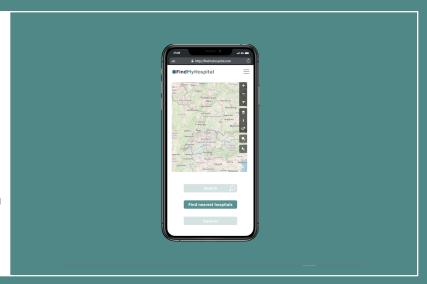

This document is designed to define the UI (USER INTERFACE) part of the application. Attached to this document are photos of the GUI MOCKUP prototype which was worked with figma software. The photos show the UI of an website opened on a phone browser and how the application should behave if certain commands are given.

Link to the prototype.

### SITE 0:

The entry page displays the map and provides various options for the user such us:
